

PCL Polypropylene Hose Reel Range

Introducing the new high quality hose reels,
featuring three sizes of reel.

HIGH QUALITY HOSE REEL FAMILY

Introducing PCL's new plastic hose reel range featuring three sizes of reel with different lengths and diameters of hose available to suit user needs.

The reels have been specifically designed for use with compressed air in garages, workshops and industrial applications. Each features a hose stop that stops in any position - and is adjustable at the flick of a lever. This new time-saving feature is an industry first.

Auto retract is standard, neatly storing the hose with no kinks, tangles or effort allowing ease of use and reducing non-value added time. All but the two bench top hose reels are slow retract, now taking an extended 13 seconds instead of 7-8 to fully retract, preventing accidental loss of hose control during retraction, reducing the risk of injury or damage.

The hose reels are easy to maintain, with cleaning brushes now included as standard to avoid debris being taken back into the reel which can cause the layering system to fail.

Features

- Easy to use adjustable hose stopper -
Reduces non-value-added time
- Auto retract - Easily and smoothly
rewinds the hose
- High impact polypropylene
construction for maximum durability
- Built-in cleaning brushes as standard
- Copper tail outlet thread with dust cap
- Steel wall mounting 180° swivel
bracket
- Stylish product and packaging

Industry first adjustable hose stop

Stylish design and packaging

Cleaning brushes now included

Bench Top Hose Reels

PCL's Bench Top Hose Reel's small size makes them ideal for confined environments where space is a major factor and robustness is essential.

Part No.	Hose Length	Hose I.D	Hose Material
MH2W	10 m	6 mm	PVC Hybrid
MHR2X	8 m	8 mm	PVC Hybrid

1/4" BSPT Connection
Working pressure: 120 psi / 8 bar

Ideal for
small
workshops

Workshop Pro Hose Reels

Designed with safety in mind, PCL's medium-sized Workshop Pro Hose Reels feature a slow retracting mechanism, reducing the risk of injury or damage.

Part No.	Hose Length	Hose I.D	Hose Material
MHR3K-01	10 m	8 mm	PVC Hybrid
MHR3L-01	10 m	10 mm	PVC Hybrid
MHR3L-02	15 m	10 mm	PVC Hybrid
MHR3L-03	20 m	10 mm	Rubber/ PVC

1/4" BSPT Connection
HRA3K01 Working pressure: 120 psi / 8 bar
Working pressure: 250 psi / 17 bar

Slow Retract
up to
13 seconds

Workshop Prestige Hose Reels

PCL's Workshop Prestige Hose Reels are the largest reels of the new range featuring a slow retracting mechanism, reducing the risk of injury or damage.

Part No.	Hose Length	Hose I.D	Hose Material
MHR3M-01	15 m	12 mm	PVC
MHR3M-02	18 m	12 mm	Rubber / PVC

1/2" BSPT Connection
Working pressure: 250 psi / 17 bar

Slow Retract
up to
13 seconds

ALSO AVAILABLE

Genuine PCL Couplings

- Built by hand
- 100% individually tested
- Manufactured with case hardened steel
- Corrosive and scratch-resistant finish

Full range available

AIRFLOW COUPLINGS

For fixed applications

VERTEX COUPLINGS

For trailing hose applications

SAFETY COUPLINGS

Eliminates hose whip

XF (EURO) COUPLINGS

For high flow rate applications
